Change Order

Instructions

A. GENERAL INFORMATION

This document was developed to provide a uniform format for handling contract changes that affect Contract Price or Contract Times. Changes that have been initiated by a Work Change Directive must be incorporated into a subsequent Change Order if they affect Price or Times.

Changes that affect Contract Price or Contract Times should be promptly covered by a Change Order. The practice of accumulating Change Orders to reduce the administrative burden may lead to unnecessary disputes.

If Milestones have been listed in the Agreement, any effect of a Change Order thereon should be addressed.

For supplemental instructions and minor changes not involving a change in the Contract Price or Contract Times, a Field Order should be used.

B. COMPLETING THE CHANGE ORDER FORM

Engineer normally initiates the form, including a description of the changes involved and attachments based upon documents and proposals submitted by Contractor, or requests from Owner, or both.

Once Engineer has completed and signed the form, all copies should be sent to Owner or Contractor for approval, depending on whether the Change Order is a true order to the Contractor or the formalization of a negotiated agreement for a previously performed change. After approval by one contracting party, all copies should be sent to the other party for approval. Engineer should make distribution of executed copies after approval by both parties.

If a change only applies to price or to times, cross out the part of the tabulation that does not apply.

**Re: WTCPUA 1080 Transmission Main Segment A
Change Order #1**

Mr. Roberts and Board:

Attached please find Change Order #1 from SJ Louis Construction of Texas, for procurement of additional pipe and fittings, and an extension of contract time for material procurement. We have coordinated with the contractor to purchase additional materials to have on hand in case of a required field change during construction, to avoid certain material procurement delays. The extended delays in material delivery affected the contract completion schedule. The proposed change order allows the construction time period to begin in June 2022, allowing for pipe manufacturing and delivery schedule accommodations following the February 2022 execution of the contract.

We have reviewed the additional quantities submitted by the Contractor, and find them to be fair and reasonable. We recommend that Change Order #1 be approved accordingly for an amount of \$17,346.19. The total Contract price, if this change order is approved, will be revised to \$3,531,369.29.

If you have any questions, please do not hesitate to contact me.

Sincerely,

RE: 1080 24" Transmission Main – Segment A
West Travis County Public Utility Agency

SJ Louis Construction of Texas Ltd. looks forward to working with the WTCPUA. Due to delays in pipe procurement, we propose the following:

- June 1, 2022: NTP for preparation activities (submittals, potholing, SWPPP, surveying, clearing, tunneling, etc.)
- August 1, 2022: Pipe Delivery
- December 28, 2022: Substantial Completion
- June 26, 2023: Final Completion

This will allow SJ Louis to proceed with the pipe order and preparation activities to expedite delivery and finish pipe installation before substantial completion.

As directed, we have also secured additional pipe and material, to prevent further delays in procurement, should a change order occur. They are as follows:

- 3-gauge pipe joints (24" CL250 Ductile Iron)
- 2-11.25°, 2-22.5°, and 4-45° bends (24" CL250 Ductile Iron)

Thank you for your review and consideration. If any further information or clarification of information is required, please do not hesitate to contact me.

Regards,

Matt Caffey
